**Accounting Services:** Caters to day to day requirements i.e., Entry, Recons, AP/AR and Financials in accrual basis with all the supporting schedules.

**Controller and CFO Services:** For companies who need more than just accounting and need our support in financial decision making and compliance.

**Financial Analysis and Modeling:** Covers analytics on the business & financials, Providing insights into the business including budgets & projections.

## Why choose our finance services?

- Reduce operating and overhead costs of accounting function
- Timely execution of deliverables
- Economy through efficient processes
- High quality services by skilled accountants
- Monitor & manage your finances better with our best in class reporting
- Insights & tools to make informed decisions
- Convenient - our services grow per your business needs i.e., bookkeeping to financial modeling.

## See what our clients say about us!

"We have been using Entelyglobal for full charge Accounting Work for the last several years. To give an example, I just came back from a vacation and accounting department ran smoothly in my absence. I would recommend their service to companies who are frustrated with managing in-house bookkeeping"

-- Jignesh Doshi  
-- Senior Project Manager at Reliable Group

"I had a great experience with the Entelyglobal team. The team's communication skills, attention to detail, accuracy of data entry, and experience with QuickBooks set them apart from other remote accounting providers. They helped me with everything from data entry & analysis to accounting system setup and transfer/rebuild of accounting records

I would highly recommend Entelyglobal to others!

-- Kayt Dieker, CPA  
-- Controller, Simply Pure Colorado
